Direct access to menu systems
using projector control panel
or remote

Carrying case supplied with
projector

InstaCare®, TravelCareSM
Instacare XpressSM Service

Amazing new Go! Series projectors, light on
everything but performance.

Simplify your life and leave your notebook computer at home. Just download your presentation onto a CompactFlash™; then using the LT85 or the LT150's built-in presentation viewer, you can present directly from the projector and leave the weight of your notebook behind.

The LT85 and LT150 utilize NEC Technologies' exclusive VORTEX Technology™, providing you with bolder, more colorful images with unmatched clarity and detail. For multiple users, the LT85 and LT150 incorporate Advanced AccuBlend™ Technology to ensure that an accurate image is displayed from virtually any notebook. And NEC Technologies' AutoSense™ Technology provides simple one-touch setup and adjustment.

The LT Series is covered by NEC Technologies industry-leading service programs. InstaCare provides projector repair and return within three business days or next business day replacement. When overnight isn't fast enough, NEC offers InstaCare Xpress. TravelCare provides service coverage for the international traveler.

Solutions with Vision

LT85 and LT150

Remote
