Information technology continues to develop rapidly. The innovative possibilities for communication, information and presentation pave the way for greater flexibility, speed and professionalism. Anyone who wants to benefit from cutting-edge technology will be ahead of the trend with Toshiba.

If you make high demands on your system and don't want to do without mobility, you need the perfect presentation tool. The new TLP-B2 from Toshiba. This projector transforms every caterpillar into a butterfly, regardless of whether you want to present texts or graphics from your notebook, a film from your video or DVD player, or even television. 1,000 ANSI lumens in full XGA-resolution project your presentation in an impressive, brilliant range of colours on any background. At only 2.6 kg our featherweight projector is as super-light to carry as easy to operate. A new, clearly laid out "icon menu" makes rapid visual orientation possible. Simply pack the mobile TLP-B2 in your luggage along with a suitable Toshiba notebook, and the journey to your customer will be sheer joy. Without having to transport any unnecessary weight. The rest is simple, as this projector can adjust flexibly to every situation. Give your presentation wings and inspire your audience. With the TLP-B2 from Toshiba.

2.6 KG, XGA-RESOLUTION AND 1,000 ANSI LUMENS

At the touch of a button, the new multi-talented projector from Toshiba reveals itself to be the ideal solution for mobile presentations. Demanding tastes will quickly fall in love with its sophisticated design. Use this new freedom in your presentations. The TLP-B2 from Toshiba combines the finest presentation technology with an ease unknown before.
