

## Conference Room and Large Venue

## DLP Projector for Business

The BX401C projector is perfect for meeting rooms as well as larger venues that require high brightness and maximum impact images. Displaying a 300-inch maximum diagonal image from under 32 feet away, the BX401C is an extremely capable DLP projector.

Achieve intense brilliance with the 4000 ANSI Lumens of the BX401C. Even in the most challenging projector placements, this projector displays captivating video, stills and presentations with superb image quality. With multiple connectivity options, the BX401C can display video input from the myriad of hi-tech devices used by presenters. One HDMI input, a USB port, an RS-232C connection, as well as two RGB inputs are on hand for connecting the projector to computers, the most advanced DVD and Blu-Ray players, DTV decoders and many other video devices.

The impressive features of the BX401C don't end with high brightness and massive images. The BX401C comes with a full complement of on-board utilities like Auto Sleep, Presentation Timer and Quick Power On/Off designed to make presenting easier and more effective.
