

DLP 3D Ready Multimedia Projector

The BX327 projector is a creative and versatile display solution that delivers HD 3D picture quality for a multitude of commercial applications. Compatible with various 3D formats, the BX327 supports not only sequential transmissions, but also side by side, top bottom, and HDMI 1.4a frame packing. This gives you the compatibility you need in order to project your 3D content. DLP technology combined with a native 1024x768 XGA resolution renders images and color with incredible accuracy. Whatever your audience, from business executives, to students, to patrons at a bar or restaurant, the BX327 projector can deliver a new level of compelling and engaging 3D multimedia.

DIGITAL KEYSTONE CORRECTION
For controlling the projector's image at off angles

PICTURE STILL
Using the remote, the projector can freeze a motion image from any input source

EXPERT COLOR CONTROL
Separately control the contrast, saturation, and the tone of all colors

BRILLIANT COLOR™
Increase brightness in non-primary colors and amplify color mid-tones

HD DivX® PLAYER
Watch HD Divx movies via USB 2.0

3D READY
(DLP Ready Type, HDMI ver. 1.4_3D)

LONG LAMP LIFE
Up to 4000hrs in economic mode

BUILT-IN STEREO SPEAKERS

AUTO SLEEP

A 3D Blu-ray™ player and 3D glasses (Active, DLP Link type) are required to play and view 3D contents - sold separately. For a small percentage of the population, the viewing of stereoscopic 3D video technology may cause discomfort such as headaches, dizziness or nausea. If you experience any symptoms, discontinue using the 3D functionality and contact your health care provider.

SPECIFICATIONS

**PROJECTION SYSTEM**

Display Technology	0.55" DMD S450 (DDP2431)	
Native Resolution	XGA (1024x768)
