

STUDIO EXPERIENCE

Matinee 1HD

Big Screen Entertainment Made Easy.

Enjoy big screen entertainment in the cozy comfort of your home. No more waiting in long ticket lines, fumbling for a seat in the dark, or sticky floors. The Matinee 1HD will change all that. Picture yourself lounging on your sofa, snuggling with those closest to you and watching your favorite movie. Munch on popcorn made the way you like it, sip your beverage of choice and settle in for an enjoyable movie-watching experience. The Matinee 1HD handles more than just DVD's. Imagine ecstatic faces playing video games or watching the Big Game on a 10-foot wide screen. The Matinee 1HD, bringing big screen excitement to your home at a matinee price.

- True 16:9 wide screen LCD technology. Optimized for DVD and HDTV video sources.
- 700 ANSI lumens is bright enough for everyday use in the family room.
- 800:1 high contrast ratio ensures that the projected image is full of detail.
- Horizontal and vertical lens shift make set up a snap in any room.
- Short throw lens creates a life-size image from a short distance.
- Superior video processing creates smooth, life-like images with excellent color uniformity and natural flesh tones.

Why buy a front projector instead of a wide screen TV?

• **Size matters.** Why settle for a 36" wide screen TV when you can project up to a 200" image with the Matinee 1HD? You can adjust the screen as large as your space allows.

• **Impact you senses, not your living space.** The larger the TV, the more it intrudes into your living room. The Matinee 1HD is about the size of a 3-ring binder and weighs less than 8 pounds. Set it on your coffee table, shelf or mount it on the ceiling.

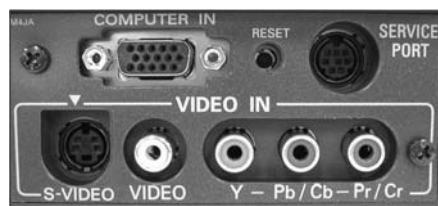

• **Down in front.** Tired of having to sit directly in front of the TV to get the best image? The image from the Matinee 1HD can be seen from all angles, near and far to the screen.

• **Get in the game.** Ever try to take your TV to your friend's house to watch the big game? The Matinee 1HD is made to do just that. It's portable and easy to set up - just connect and project.
