# A New Way to Share Your Ideas

Smaller, lighter, smarter. . . .

Multi-device wireless projection with Miracast™ support.

# ProSelecta

View :: Compare :: Select - [www.ProSelecta.com](http://www.ProSelecta.com)

# Wireless Has Gone Versatile. You Choose the Device.

## Easy-Going Wireless. Multi-Device, in Classrooms and Meeting Rooms.

Connect N Collaborate—Linking People, Devices & the World

### Miracast™ Wireless Projection\*1

Connect a Miracast™-compatible PC, tablet or Android phone and instantly mirror whatever is on your screen—from Full-HD video to websites, online video streams, and PowerPoint documents. You can connect tested Miracast™-compatible device directly to the projector, without having to access a Wi-Fi® network. This makes the next generation of high-quality wireless projection even easier to use.

Please visit our global website, <http://panasonic.net/avc/projector/>, for list of tested Miracast™ compatible devices.

### for Smart Devices Wireless Projection from iOS/Android Devices\*2

The software allows wireless projection from an iPad, iPhone, iPod touch, and/or Android devices. Download the application from the App Store and/or Google Play.

- A wide range of projectable documents including Word, Excel, PowerPoint, JPEG, PDF, Text, Rich text, Keynote\*3, and many more
- Marker function • Pointer function • Motion Capture projection • One Shot projection
- Multi-live mode

### Wireless Manager ME 6.0.2 Wireless Projection from Windows/Mac PCs\*2

The software provided with the projector allows easy transfer of data from the screen of a personal computer\*4 through a PC's wireless LAN function.\*5 It can also be used to transfer audio files.\*6 Multi-Live mode allows the simultaneous projection of up to 16 computers. The software greatly shortens the set up time and the graphical user interface (GUI) has been redesigned for easier and simpler operation.

### Easy Wireless Stick Speedy Wireless Projection without App Installation

Simply plug Easy Wireless Stick\*7 (ET-UW100) into the computer's USB port for easy wireless projection\*8 of the computer screen.\*4

### USB Memory Wireless Projection from a USB Memory Device\*1

Not only still images, but full-HD video files can also be projected by simply inserting the USB memory device into the USB port of the projector. This makes it easy to give presentations without having to use a computer.

\*1 For the PT-VW345NZ/VX415NZ.  
 \*2 Wireless projection with devices that are not Miracast™-compatible or wireless projection from multiple devices requires the installation of dedicated software.  
 \*3 For iOS devices only  
 \*4 Supported by Windows®XP/Windows Vista®/Windows®7/Windows®8 and Macintosh (Mac OS X v10.6/v10.7/v10.8)  
 \*5 If the computer is not equipped with a wireless LAN function, a wireless LAN card is required. In the case of Macintosh computers, only the built-in wireless LAN function is supported. Network functions such as Live mode and Multi-Live mode can also be used with a wired LAN.  
 \*6 Windows®7 and Windows Vista® computers must be logged on to using the Administrator's account. The first time that a Windows®7 computer is used, the sound driver may require setting.  
 \*7 The ET-UW100 is available in the following countries and regions as of October 2013. North America, England, Germany, France, Spain, Italy, Belgium, Austria, Sweden, Norway, Denmark, Switzerland, Holland, Finland, Portugal, Greece, Australia and Japan.  
 \*8 The ET-UW100 will not transfer audio files. Firmware update is necessary for ET-UW100 in order to be able to use with the PT-VW345NZ/VX415NZ.  
 For more information, please visit projector global website:<http://panasonic.net/avc/projector/>

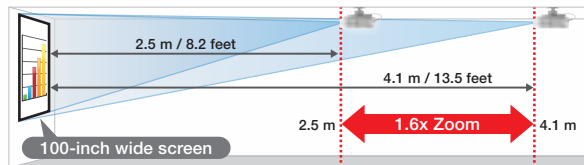

# Superb Performance in a Compact Body

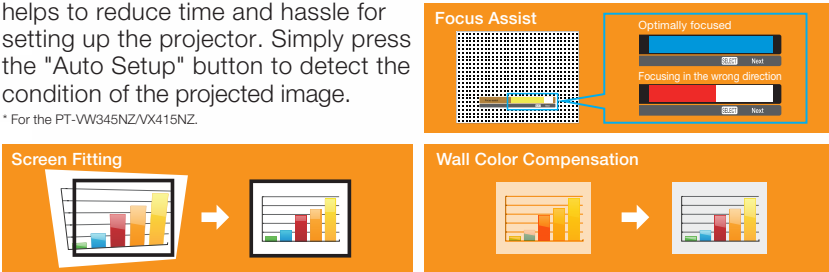

- A remarkable **4,200 lm<sup>\*9</sup>/4,000 lm<sup>\*9</sup>/3,700 lm<sup>\*9</sup> of brightness** has been achieved for bright, clear images to enhance usage applications while maintaining the compact body.
- Incorporates a variable iris that produces **high contrast of 4,000:1<sup>\*10</sup>** for sharp, crisp projection in any situation.
- Reduces maintenance hassle and ensures low TCO with a maximum lamp replacement cycle of **up to 6,000 hours** and long filter life of **up to 6,000 hours<sup>\*11</sup>**.
- Panasonic's Daylight View Basic technology** achieves sharp, easy-to-see images by clearly reproducing the details in dark image areas, which were previously difficult to see in brightly lit rooms.
 
- The quiet design keeps noise levels down to **29 dB<sup>\*12</sup>** as the sound of the cooling fan is hardly noticeable. No interruption of the speaker while in meetings or classes.

# Convenient Functions for Portable and Ceiling-Mounted Applications

- The **1.6x zoom lens** supports a wide range of projection distances which allows flexible installation.
 

\* For the PT-VW345NZ/VW340Z/VX415NZ/VX410Z. 1.2x zoom for the PT-VX42Z.
- Corner Keystone Correction** enables angled projection by simply designating four corners of the projected image.
 

\* For the PT-VW345NZ/VW340Z/VX415NZ/VX410Z. PT-VX42Z supports only vertical keystone correction
- USB Display** outputs images and sounds from the computer by connecting to the USB port with a single USB cable.
 

\* For the PT-VW345NZ/VX415NZ.
- Easy Setting Function** helps to reduce time and hassle for setting up the projector. Simply press the "Auto Setup" button to detect the condition of the projected image.
 

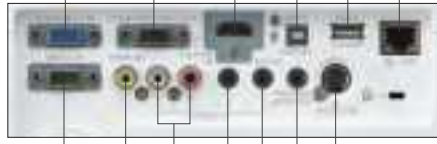

\* For the PT-VW345NZ/VX415NZ.
- Side-by-Side and Picture-in-Picture functions** allow simultaneous projection of two different image sources<sup>\*13</sup> onto a single screen.
 

\* For the PT-VW345NZ/VW340Z.
- High-output **10-watt speakers** and a microphone input enables audio playback directly from the projector for even more effective presentations.

## Other Useful Features

- Easy remote monitoring and control over a LAN
- The standby power consumption is as low as 0.48 W
- Crestron Connected™ compliant
- AMX DD compliant
- Auto Input Signal Search
- Input Guidance function
- Real-time keystone correction<sup>\*14</sup>
- Color-board and blackboard modes
- Easy lamp and filter replacement
- Direct power off
- Ecology-conscious design
- Projector identification system for up to 6 projectors

**Extensive interfaces** support a wide range of system architectures for portable or ceiling-mounted use.

- 1 LAN
- 2 USB (Type A) \*1
- 3 USB (Type B) \*1
- 4 HDMI Input
- 5 COMPUTER Input 1
- 6 COMPUTER Input 2 / MONITOR Output
- 7 S-VIDEO Input
- 8 AUDIO Output
- 9 AUDIO Input 2 (MIC IN)
- 10 AUDIO Input 1
- 11 AUDIO Input
- 12 VIDEO Input
- 13 SERIAL Input

\* HDMI input terminal  
\* 2 sets of computer (RGB) input terminals  
\* LAN terminal  
\* serial (RS-232C) terminal for external control.

- The value for L (distance to screen) varies slightly depending on the zoom lens characteristics.
- At the shortest projection distance, the zoom lens characteristics may cause slight image distortion.

<sup>\*9</sup> The PT-VX415NZ/VX410Z has 4,200 lm, PT-VX42Z 4,000 lm, and PT-VW345NZ/VW340Z has 3,700 lm of brightness.  
<sup>\*10</sup> For the PT-VX415NZ/VX410Z/VX42Z. The PT-VW345NZ/VW340Z has 3,000:1 contrast ratio.  
<sup>\*11</sup> The usage environment affects the duration of the filter.  
<sup>\*12</sup> With the lamp power set to Eco1 or Eco2.  
<sup>\*13</sup> The image sources must be a combination of an analog signal and a digital signal.  
<sup>\*14</sup> Keystone correction is performed in the PT-VW345NZ and PT-VX415NZ when using the Easy Setting function.  
<sup>\*15</sup> This product is used together with an optional bracket assembly (sold separately).

## Specifications

Model	PT-VW345NZ	PT-VW340Z	PT-VX415NZ	PT-VX410Z	PT-VX42Z
Power supply	AC 100–240 V 50 Hz/60 Hz		AC 100–240 V 50 Hz/60 Hz		
Power consumption	100–120 V: 300 W, 220–240 V: 280 W (0.4 W when Standby mode set to Eco*, 5 W when Standby mode set to Network, 14 W when Standby mode set to Normal)	100–120 V: 300 W, 220–240 V: 280 W (0.4 W when Standby mode set to Eco*, 1.3 W when Standby mode set to Network, 9 W when Standby mode set to Normal)	100–120 V: 300 W, 220–240 V: 280 W (0.4 W when Standby mode set to Eco*, 5 W when Standby mode set to Network, 14 W when Standby mode set to Normal)	100–120 V: 300 W, 220–240 V: 280 W (0.4 W when Standby mode set to Eco*, 1.3 W when Standby mode set to Network, 9 W when Standby mode set to Normal)

- \* 1 When the Standby mode is set to Eco, network functions such as standby on via LAN are not available.  
Also, only certain commands can be received for external control using the serial terminal.  
\* 2 Measurement, measuring conditions, and method of notation all comply with ISO 21118 international standards.  
\* 3 With legs retracted to minimum.  
\* 4 Including protruding parts.  
\* 5 Average value. May differ depending on the actual unit.

## Caution

Do not install the projector in locations that are subject to excessive water, humidity, steam or oily smoke. Doing so may result in fire, malfunction or electric shock.

## NOTES ON USE

- The projector uses a high-voltage mercury lamp under high internal pressure. This lamp may break, emitting a popping sound, or fail to illuminate, due to impact or extended use.
- The high-wattage lamp becomes very hot during operation. Please observe the following precautions:
  - Never place objects on top of the projector while it is in operation.
  - Make sure there is an unobstructed space of 39-3/8 inches (1,000 mm) or more around the projector's exhaust openings.
  - If stacking projector units, care must be taken to provide the recommended space between units. These space requirements also apply to installation where only one projector unit is operating at one time and the other unit is used as a backup.

- If the projector is placed in a box or enclosure, the temperature of the air surrounding the projector must match the operating temperature listed in the specifications table during use. Also, make sure the projector's intake and exhaust openings are not blocked. Ensure there is sufficient ventilation to prevent hot air from the exhaust openings being recirculated into the intake opening.
- The lamp replacement cycle duration becomes shorter if the projector is operated repeatedly for short periods.
  - The lamp replacement cycle varies greatly depending on individual lamp characteristics and usage conditions.
  - The brightness of the lamp will gradually decrease with use.
- Due to natural characteristics of lamps, screen brightness may fluctuate. This is not an indication of faulty lamp performance.
