

**HDMI**

The SA560 is an Ultra Short Throw (UST) business projector. It uses a laser technology that is just as reliable and long-lasting as in an LG television. With useful functions and an easy control the SA560 suits well for educational purposes. Especially seminar and conference rooms can be equipped with the SA560. Through the Ultra Short Throw optic the projector can be installed very close to the screen. Presenter and lecturer can avoid the light beam of the projector during the presentation. Digital copies of your favourite films via Intel WiDi can be streamed directly from your notebook. The SA560 with a contrast ratio of 35,000:1 combined with the laser technology creates clear images and sharp outlines.

- Professional Ultra Short Throw Business projector for fixed installation
- Native WXGA-resolution (1280 x 800)
- Laser light source of 20,000 hours in ECO mode
- High brightness of 2,800 ANSI lumen
- Projection distance 80" @ 52cm
- Intel WiDi technology for wireless image and audio streaming
- 35,000:1 contrast
- HDMI connection
- Lan connection (RJ45)
- Low noise emission of < 29 dBA in ECO mode
- 7 W stereo speakers
- Integrated FileViewer for images, videos and files
- Mic input

**Picture**
