Empowering People

The H5350 projector transforms the living room into a state-of-the-art home theater. With 720p native resolution, 2000 ANSI Lumens brightness, 2000:1 contrast ratio and Acer ColorBoost technology, the H5350 projects hi-def content and breathtaking, lifelike images with precision for a true big screen cinema experience.

An HDMI™ port allows connectivity to the newest digital devices with HD signal support, and the chic white color adds subtle elegance to any viewing environment.

<b>Remote Control</b>	IR remote control
<b>Noise level</b>	32 dBA (Standard), 28 dBA (ECO)

## Feature highlights

### Captivating imagery

- Unique, elegant design
- Acer ColorBoost Technology
- Native 720p (1280 x 720) resolution
- 2000 Lumens brightness and 2000:1 contrast ratio
- DLP® system design

### Easy usability

- Acer eView Management
- Acer eTimer Management
- Acer SmartFormat Technology
- Acer InstantPack technology
- Automatic safety shutdown
- Quick signal detection

### Diverse multimedia

- Digital connectivity via an HDMI™ port
- Multi-PC Connectivity
- Windows Vista® compliance

### Rich functionality

- Longer lamp life (4000 hours)
- Keystone correction (40° vertical)
- Digital zoom and pan
- PIN security
- Built-in speaker
- Alarm

ColorBoost

### Acer ColorBoost Technology

Featuring an optimized 6-segment color-wheel design, powerful image processing, and advanced lamp illumination technology Acer ColorBoost technology provides incredible color performance, never before seen in conventional projectors. Brilliant color with a high contrast ratio presents ultra-vivid images for business presentations, educational purposes, and home entertainment.

SmartFormat

### Acer SmartFormat Technology

Conveniently supports comprehensive wide-format PC signals. You no longer need to worry about annoying "Signal not supported" issues, nor must they change the resolution of their wide-format notebook.

eTimer

### World-leading HD Wireless Projection

Acer projectors are the first to offer HD wireless projection, ensuring lossless quality and instant transmission of high-def video and audio via the latest 802.11b/g wireless technology. Up to 1080i/720p resolution allows you to view ultra-sharp, seamless fast-moving videos even on large screens, and an onscreen console enables one-click connection with conference control for multiple presenters.

eView

### Acer eView Management

Acer eView Management helps you adjust your projector settings to suit any environment and any type of content in just a few moments. Six factory or user-defined presets instantly reconfigure color, brightness and contrast to deliver best-quality images every time.

Quad-View

### Acer Quad-View Technology

Acer Quad-View technology divides the projection screen into four, allowing content from different PCs to be displayed simultaneously. Multiple users can easily connect to the wireless projector using their own tokens.

eOpening

### Acer Top-Load Lamp Design

The lamp module is now top-loaded, as opposed to the conventional bottom-loading design. Hence, even when the projector is ceiling-mounted, the user can easily replace the lamp module without detaching the projector from the ceiling.

Instant Pack

### Instant Pack

If the user is in a hurry to leave, the power cord can be unplugged right after the projector is turned off, without any resulting damage. There's no need to wait for a cooling period; the user can pack up the projector and leave immediately.
