

High-productivity widescreen projection

The P5370W delivers impressive projection with its 16:10 widescreen aspect ratio, 3000 ANSI Lumens brightness, 2000:1 contrast ratio, and WXGA (1280 x 800) resolution.

With a noise level of only 28 dBA, this powerful but quiet performer presents crisp, clear video whether in the boardroom, classroom, home cinema or a large venue with bright ambient light. Sporting a built-in speaker for enhanced audibility and all-digital audio/video connectivity through an HDMI™ and a DVI port, the P5370W offers wider, better and brighter projection.

Feature highlights

Spectacular display

- Unique, elegant design
- Acer ColorBoost technology
- 16:10 aspect ratio
- WXGA resolution
- 3000 Lumens and 2000:1 contrast ratio
- DLP® system design

Confident usability

- Acer eView Management with innovative Blackboard Mode
- Acer eTimer Management
- Acer eOpening Management
- Acer SmartFormat technology
- Acer Top-Loading Lamp design
- Acer InstantPack technology
- Automatic safety shutdown
- Quick signal detection

Smooth connectivity

- Digital connectivity via an HDMI™ port
- Digital connectivity via a DVI-D port
- Dual D-Sub input
- Multi-PC connectivity
- Monitor loop through
- RS-232 port
- Windows Vista® compliance

Competent functionality

- ECO mode
- Keystone correction (40 degrees vertical)
- Digital zoom and pan
- Low noise level
- Built-in speaker
- Alarm
- PIN security
- Sliding lens cover

ColorBoost

Acer ColorBoost Technology

Featuring an optimized 6-segment color-wheel design, powerful image processing, and advanced lamp illumination technology Acer ColorBoost technology provides incredible color performance, never before seen in conventional projectors. Brilliant color with a high contrast ratio presents ultra-vivid images for business presentations, educational purposes, and home entertainment.

SmartFormat

Acer SmartFormat Technology

Conveniently supports comprehensive wide-format PC signals. Users no longer need to worry about annoying "Signal not supported" issues, nor must they change the resolution of their wide-format notebook.

eTimer

Acer eTimer Management

A digital clock that can be set by the user and displayed onscreen for convenient reference keeps presentations going at the right pace. Acer eTimer Management also features a visual countdown and alarm, or countdown alone, to warn the presenter when time is up.

eView

Acer eView Management with Blackboard Mode

Acer eView Management helps users adjust their projector settings to suit any environment and any type of content in just a few moments. Six factory or user-defined presets instantly reconfigure color, brightness and contrast to deliver best-quality images every time. Innovative Blackboard Mode allows users to instantly project onto a traditional green chalkboard. There is no longer a need to set up a separate white screen.

eOpening

Acer eOpening Management

Acer eOpening Management allows users to easily create a customized startup screen for their Acer projector. Business users can set a corporate logo to create a professional brand image or add owner information to protect the projector from theft. Home users can have fun displaying their favorite photographs.

Top Loading Lamp

Acer Top-Load Lamp Design

The lamp module is now top-loaded, as opposed to the conventional bottom-loading design. Hence, even when the projector is ceiling-mounted, the user can easily replace the lamp module without detaching the projector from the ceiling.

Instant Pack

Instant Pack

If the user is in a hurry to leave, the power cord can be unplugged right after the projector is turned off, without any resulting damage. There's no need to wait for a cooling period; the user can pack up the projector and leave immediately.
