

Orchestrating a brighter world

NEC

PE Series

Ideal for classrooms and corporate conference rooms

PE455WL/PE455UL

Versatile, maintenance free, quiet entry installation projectors with a reliable laser light source.

No Maintenance Projection Solution

- NEC's sealed LCD cooling system prevents dust from reaching the optics and eliminates the need for a filter
- Advanced laser technology delivers a reliable light source up to 20,000 hours

NEC's patented LCD panel cooling system

Powerful Performance

- Lowest audible noise of any projector in this class provides distraction free presentations.
- After startup images appear immediately with breakthrough laser technology
- Brightness adjustment and constant brightness mode maximize laser life and allow for a consistent looking image over an extended period of time
- High performance video processing/scaling supports 4K/30 content
- Integrated software support for Crestron Roomview, AMX Beacon, PJ Link control systems

More Flexible Installations

- Lens shift capabilities make alignment easy
- Tilt-free installation capabilities make these projectors ideal for almost any install environment, including portrait orientation
- Horizontal & vertical keystone adjustment along with cornerstone and pincushion provides the ability to square the image to the screen

MultiPresenter

MultiPresenter is application software that lets you display your device's screen (PC, tablet, smart phone, etc.) on the receiver projectors via wired or wireless LAN. MultiPresenter is free and available on Windows, Mac, iOS, and Android. MultiPresenter can send images from your various devices, which enables you to display real-time images with the internal camera or web pages on the smart devices in combination with a file sharing application.

Advanced Networking Capabilities

- Integrated RJ45 connection for quick connection to the LAN (10/100 base-T capability)
- Control and receive important broadcast messages via Crestron Roomview™
- MultiPresenter enables up to 16 wireless devices to be connected to the projector simultaneously with access controlled by the moderator.
- Remote diagnostics enable the user to monitor and make adjustments to the projector remotely
- Simple Access Point Sending photos and documents have never been easier from a computer or iPad.

Advanced Installation Features

Lens Shift

Lens shift provides greater flexibility when determining install location

Tilt-free

The projector can be rotated freely (360°) to orient the image depending on the installation requirements

Portrait mode

Allows the projector to be rotated (and screen if necessary) to a vertical alignment so that portrait content can be viewed without black bars on the side when landscape mode is used.

UNIQUE FEATURES

Advanced AccuBlend™ ensures detailed images when non-native resolution sources are connected to the projector

AutoSense™ automatically syncs with any computer signal and features one-touch image optimization

Discreet source keys for source selection

Remote diagnostics enable the user to monitor and make adjustments to the projector remotely

Built-in HTTP page for control and monitoring over a LAN network. Email notification of error messages or lamp end-of-life can be sent to remote locations.

WARRANTY

Registered owners receive a five (5) years or 20,000 hours (whichever comes first) parts and labor warranty including InstaCare next business day exchange.

SHIPS WITH

Remote control, batteries, power cord, user's manual on CD-ROM, quick start guide, product registration card.
