Light on Weight.
Heavy on Performance

Toshiba's latest 'X' series of LCD projectors is a powerful marriage of top-notch projection technologies and art. The elegantly designed unit is packed with some of the best features that include 3000 ANSI Lumens, high contrast ratio of 600:1 to offer maximum functionality. Incorporated with NCE5™ to deliver true-to-life colour reproduction and packed with operation features, Toshiba's 'X' series delivers a silent yet engaging presentation that leaves a lasting impression.
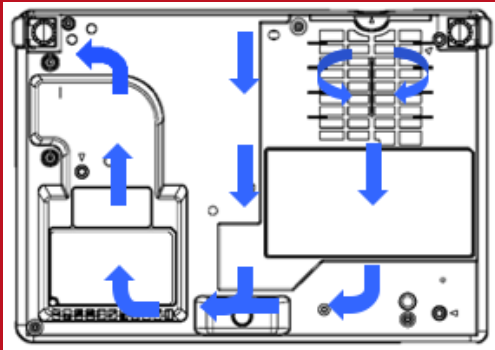

5 NATURAL COLOR ENHANCER

Powerfully Quiet Experience - In One Portable Package

Toshiba knows that customers have been looking for a projector that is small and silent, yet doesn't hold back on the performance.

The TLP-X100/150/200 series is designed with all of that in mind, and it is the lightest of XGA projectors that weighs less than 2kg. For the first time here, size doesn't matter.

Prepare to say goodbye to unnecessary distracting machine noise with the incredibly soft fan engineered for optimum airflow and minimum sound. At a mere 32dB, it's barely louder than a whisper.

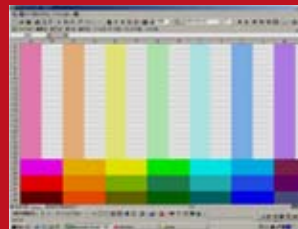

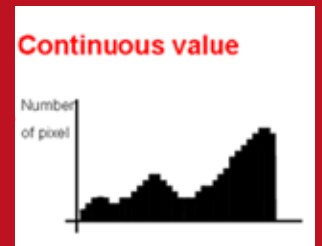

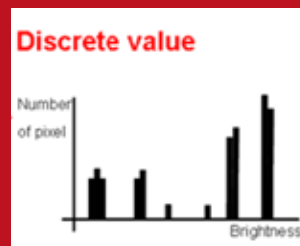

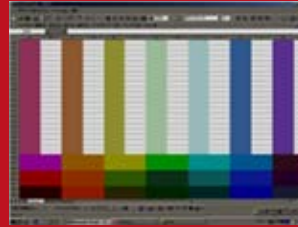

Air flow for X100 / X150 cooling.

Bottom cover is made of Magnesium which weight is lighter with enough strength.
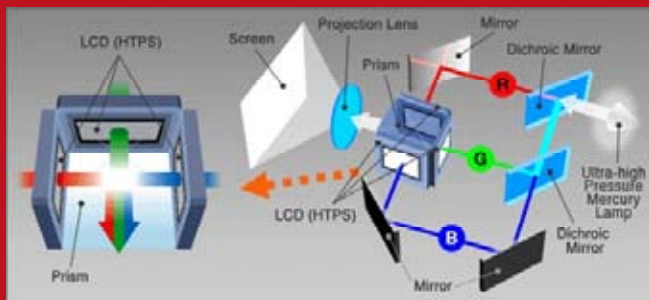

Revolutionary Colour Enhancement 5

The TLP-X150 and X200 possess Toshiba's proprietary picture colour enhancer, Natural Colour Enhancer 5 (NCE5), which enhances picture quality with natural screen colours, imbuing every picture with incredible vividness and fresh clarity

3 LCD Technology

The compact TLP-X100/150/200 series is equipped with the powerful 3LCD technology, providing excellent colour reproduction and no colour breakup. Now, all your presentations can be even crisper and clearer than ever before.

High Brightness

The series has three levels of brightness; namely 2200lm for the TLP-X100, 2600lm for the TLP-X150 and 3000lm for the TLP-X200 respectively. This gives you the ability to choose as to which projector fits your requirement best; be it in a business presentation setting or in a venue for educating purposes.

Versatile, User-friendly Features

The TLP-X100/150/200 series also comes packed with powerful and unique features, designed to meet the needs of mobile professionals, SMEs and teachers.
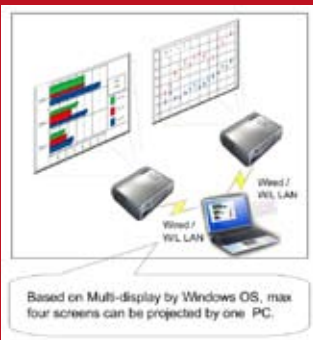

Voice Guidance Capability (TLP-X200 Only)

The TLP-X200 in particular, possesses voice guidance capability, and is the first of its kind to do so, allowing you to fully maximize use of the projector through your native language*.

The TLP-X200 series comes with 25 different languages, including English, French, German, Italian, Spanish, Portuguese, Russian, Swedish, Turkish, Polish, Norwegian, Finnish, Czech, Hungarian, Greek, Danish, Dutch, Rumanian, Japanese, Mandarin, Cantonese, Korean, Indonesian, Thai, Arabic

Multiscreen and Network Capability

It is also equipped with multiscreen and network capability, allowing multiple displays from one PC to up to four projected screens and for a single remote to control both the PC and projector together and act as a laser pointer at the same time, increasing efficiency and effectiveness.

Based on Multi-display by Windows OS, max four screens can be projected by one PC.

One remote can play triple roll, laser pointer, controlling projector and controlling PC.

Versatile, User-friendly Features

The TLP-X100/150/200 series is undoubtedly a boon to discerning users as it is fully packed with user-friendly features that makes the operating experience a very breezy and easy one.

- User logo
- Instant shutdown
- Freeze-Mute Function
- Password protected
- Mouse remote with laser
- Closed caption
- Wired/wireless
- Monitor/control via RJ45
- HDMI connectivity
- Blackboard mode
- Resize (digital zoom)
- Intelligent search
