Bright Mobile Projector with Simple Wireless Function

■ Industry's first[*1] "Simple Wireless Setting"[*2-3] Via USB memory (PLC-XU355/ XU305)

Just plug the provided USB memory stick into a PC and click to automatically set-up your wireless LAN.[*2-3] You can easily start projection without having to use a driver CD or make any complicated settings. Those models can be connected to several PCs via wireless connection, and each PC can be connected to up to five projectors. This function allows PCs and projectors to be flexibly laid out to match the scale of the presentation, without having to bother with cable lengths.[*4]
*1 As of the estimated release date, April 2009, for projectors.
*2 Depending on the settings of the PC, the set-up may not be automatically completed.
*3 For systems with wireless network LAN (IEEE802.11b/g) capability
*4 Maximum of 30 m when there are no obstacles such as walls (depending on the signal environment).

Step 1   Simple mode setting

Step 2   Plug the provided USB memory stick into the PC.

Step 3   Select "Network capture 5," and click "OK." *5

*5 Two clicks or more may be necessary depending on the computer used

■ Easy Setup Function

PLC-XU355/ XU305/ XU350/ XU300 provides "Auto Setup Function" that corrects vertical shape distortion by searching for an input signal and detecting projector incline, reducing setup time. Furthermore, the "Screen Guidance Function" allows projector set up according to the displayed guidance. This function provides all an easy guide to projection.

■ 7 W Speaker (PLC-XU355/ XU305)

Along with its mobility, the PLC-XU355/ XU305 features high-output 7 W speaker that deliver sufficient audio authority for the projector to be used in conference rooms, classrooms, and other spaces with only the built-in speaker.

Bright 3,500 Lumens (PLC-XU355/ XU350)

PLC-XU355/ XU350 achieve a bright 3,500 lumens thanks to a number of advanced technologies in their optical engine and a 225 W lamp. Approaching the brightness of many large, multi-lamp models, these advanced projectors are suited to a wide range of applications in event halls, classrooms, and meeting rooms.
PLC-XU305/ XU300: 3,000 lumens

Wide-Range 1.6x Zoom (PLC-XU355/ XU305)

The wide-range 1.6x zoom lens lets you project a 100" image from as close as 2.4 meters (7.8 ft) from the screen, to as far away as 3.9 meters (12.7 ft). That makes it a lot easier to find suitable places to set the projector up.
